

EROCONTUR

GMBH

Drahterosion - Senkerosion

- Wire-cut EDM, Sinker EDM, Start-hole EDM
- HSC-milling, Milling, CNC-turning
- Cylindrical grinding, surface grinding
- Wage measurement of all kinds

Specialized in wire
EDM since 1990

These are WE

We are always at your side. Thanks to first-class synergies, we are always ready for action. The latest hardware and software provides us with the decisive company infrastructure. Assemblies, housings or other components made of plastic and metal are our speciality.

"We work with our partners on optimised project plans. Not only to deliver a perfect product, but also to deliver in the shortest possible time - a decisive factor on the road to success in a competitive market where every hour counts."

Construction & field service

Our innovations

We have expanded our range of service:

- ✓ CNC-turning

Spinner TC600

Additionally we have a fully automated production line, consisting of:

- ✓ A wire eroding machine
- ✓ A sink eroding machine
- ✓ A milling and measuring machine
- ✓ A partial wash

GF CUT 2000 S

GF Form 300

GF MIKRON Mill S 400 U

Zeiss Duramax 5

Our pool of machines

Wire-cut EDM:

- ✓ GF CUT 2000
- ✓ GF VP 4
- ✓ GF Progress Focus 3
- ✓ GF Progress 3
- ✓ AGIECUT Exelence 3
- ✓ AGIECUT VERTEX 1
- ✓ AGIECUT EVOLUTION 3
- ✓ FANUC W2

Milling:

- ✓ GF MIKRON HEM 500U
- ✓ GF MIKRON HPM 1150U

HSC milling:

- ✓ GF MIKRON HSM 400U LP
- ✓ GF MIKRON Mill S 400U
- ✓ Rödgers RP 600
- ✓ Rödgers RXP800DS

CNC-turning:

- ✓ Spinner TC600

Wage measurement:

- ✓ Werth Scope-Check MB800/MB/Z
- ✓ Zeiss Duramax 5
- ✓ Zoller Venturion450

Sinker EDM:

- ✓ GF Form 3000 VHP
- ✓ GF Form 300
- ✓ AGIETRON Hyperspark
- ✓ AGIETRON Innovation

Start-hole EDM:

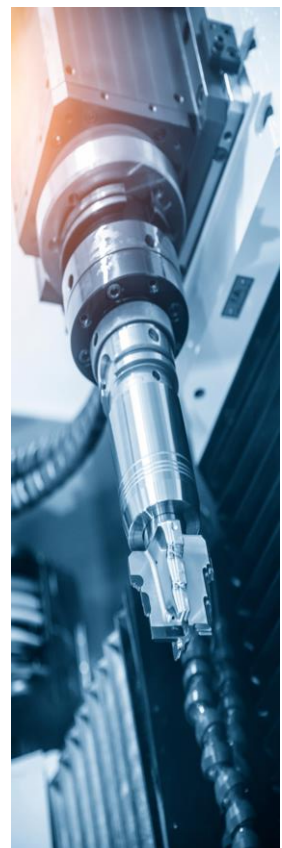

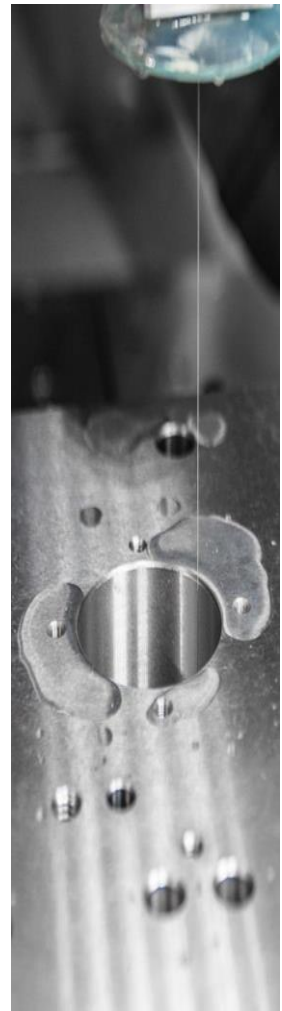

- ✓ MB 750 Wide CNC
- ✓ AGIE Charmilles Drill 20
- ✓ Novotec SD 1014 CNC

Cylindrical grinding:

- ✓ STUDER S31 CNC

Surface grinding:

- ✓ Ziersch ZT 612

YOUR COMPETENT / PROFESSIONAL PARTNER

Our range of services includes wire and die-sinking EDM, HSC milling, milling, circular and surface grinding, CNC turning as well as contract measurements of all kinds in fully air-conditioned rooms. Commitment and high flexibility are a good basis for a continuously growing customer base.

Working in a 3-shift system and a fixed weekend service guarantee machine operation around the clock. In order to meet the constantly increasing quality demands of our customers, the machinery is constantly being expanded with the latest generation of machines.

We are certified according to ISO 9001:2015.

OUR SERVICE

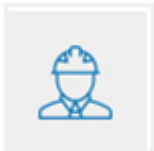

MODERN TECHNOLOGY

In order to meet the constantly increasing quality requirements of our customers, the machinery is constantly being expanded with the latest generation of machines.

PICK-UP AND DELIVERY SERVICE

You can count on us. We will bring your order to the factory gate. Profit from our 24/7 service.

SPECIALIZED EMPLOYEES

With solidly trained and further educated as well as motivated and performance-oriented employees, we are able to process even large orders with high precision in the shortest time.

FULLY AUTOMATIC PRODUCTION

Our range of services includes wire and die-sinking EDM, HSC milling, circular and surface grinding as well as contract measurements of all kinds in fully air-conditioned rooms.

CAD SERVICE

In our programming department we can quickly and easily process your data and create our own. The programs are created for each process on specially adapted programming systems.

24/7 AROUND THE CLOCK SERVICE

Work in a 3-shift system and a fixed weekend service guarantee that the machines are used around the clock.
